## Mayor's Message

With the beginning of a new school year roads and safety become a concern again. The start of the new school year brings more children and teenagers out onto the streets, thus posing a greater risk for accidents. Very few children under 10 years of age have had the experience to deal safely with the volume of traffic like they will see around our schools. These children are at risk because:

- They believe that if they can see a driver, the driver can see them
- They believe cars can stop instantly
- Few can judge the speed of traffic or distances

For parents with young children who are walking or biking to and from school I would suggest you talk with them regarding the following safety tips:

- Choose a safe walking route
- Walk on the sidewalk as far from the street as possible
- Identify how, when, and where to cross the street
- Cross at a corner, using crosswalks
- Be aware of moving vehicles in parking lots and driveways
- Stop, look, and listen for vehicles

As a parent, with teenagers that are driving to school, it is also important to talk with them advising them on the following driving practices:

- Be a smart driver
- Learn to drive well and prepare well for adverse driving situations such as rain and snow
- Make sure to wear a seat belt
- Focus on driving. Don't blast the music, talk on the phone, text, eat, or put on makeup, etc.
- Don't drive faster than the speed limit
- Keep the number of people in the car to a minimum

The best advice for all of us is to be a teacher to our children. There is nothing more important than keeping our family safe. May your family have an enjoyable and safe school year.

## Meet the Candidates Night

- Gymnastics/Tumbling & Children's Choir information can be found online.

## Public Works

### **Are you Water Wise?**

Utah is the 2<sup>nd</sup> driest state in the nation and water is a precious resource. All residents are encouraged to conserve water, especially during the summer months.

The state has developed a plan called "Slow The Flow" to help residents be "Water Wise". They have set a guideline for no outside watering during the hours of 10am-6pm. Plan now to be "Water Wise" for next summer. More information can be found at [www.slowtheflow.org](http://www.slowtheflow.org).

## Public Safety

### Dog Licensing

Recently we have had several dogs picked up and taken to the South Utah Valley Animal Shelter because they did not have a dog license. As a reminder, if your dog is over 4 months old you need to have it licensed with the City. You can license your dog at the Mapleton Public Safety Building located at 305 North Main Street or your local veterinarian. You will need to bring in proof of current rabies vaccination. The cost is \$15 for one year if your dog is spayed or neutered. If not it will cost \$35 for a year. If your dog is running loose, and it is picked up by animal control, we are able to return it to its owner instead of taking it to the animal shelter.

### Driving in and around Schools

With the schools back in session please be mindful of the children walking to and from school. Some of the children walk in the roadway because there is no sidewalk. Please slow down while driving in and around the schools so we can keep our children safe.

### Do I need to maintain my yard?

Property owners are expected to maintain a weed and junk free yard. Mapleton prohibits injurious or noxious weeds, garbage, refuse or any unsightly or deleterious objects/structures from being kept in your yard. This applies to trash, used materials, household furniture and appliances, scrap metal, equipment or equipment parts in open areas that are visible from the street or from neighboring property. The storage of commercial goods and materials are prohibited in residential and agricultural areas.

Mapleton also prohibits the storage of abandoned, wrecked, junked and inoperable vehicles. If any of your vehicles are inoperable, unlicensed or uninsured you may not park, leave or store them on your property for more than 72 hours. However, up to the equivalent of two (2) vehicles/parts of vehicles may be stored on your property if they are stored within a building or behind an opaque screening or hedge and are consequently not visible from the street, sidewalk and neighboring property.

The failure to abide by these rules is considered a nuisance and detrimental to the health safety and welfare of Mapleton City residents. Mapleton City has a Code Enforcement Program that typically works on a complaint basis and that attempts to work with violators to bring property into compliance, using prosecution only as a last result. A person who violates these rules and fails to bring their property into compliance in a timely manner can be prosecuted.
