

City Council Staff Report

September 16, 2015

Applicant: Elisa Opt'Hoff

Location: Approx. 1780 E
1600 N

Prepared by: Sean Conroy,
Community Development
Director

Public Hearing: No

Zone: A-2

Attachments:

1. Application materials.
2. Planning Commission minutes.

REQUEST

Consideration of a Resolution to waive subdivision improvements for the Homestead Plat "A" subdivision consisting of one 2-acre lot located at approximately 1820 East and 1600 North.

BACKGROUND AND PROJECT DESCRIPTION

The subject property is a 126 acre parcel that fronts on both 1200 North and 1600 North and extends east up the mountainside. Approximately 23 acres of the property is in the A-2 zone, with the remaining 123 acres in the CE-1 zone. The parcel is not developed and is being used for agricultural purposes. The applicant is proposing to create a two acre building lot at the northwest corner of the property that will front on 1600 North.

On May 20, 2015 the applicant approached the City Council about the possibility of receiving a waiver from the requirements to widen the street and to add curb, gutter and sidewalk. The Council supported the request to not install sidewalk since the City's Lateral Canal Trail is proposed along the north side of 1600 North, but the Council did want the street widened with curb and gutter.

The applicant's plans show the street widening and the curb and gutter consistent with the Council's request. However, the applicant is now making a formal request that the requirements for street widening, curb and gutter be waived.

EVALUATION

Subdivision Ordinance: Mapleton City Code (MCC) Chapter 17 constitutes the city's subdivision ordinance. This chapter requires right-of-way improvements as part of all subdivision applications, but does contain the following exception:

"17.12.040.B. As part of the preliminary plan review process, if approved by the city council, the curb, gutter, and sidewalk improvements otherwise required may be modified and specifically tailored to more effectively achieve the policies, goals, and objectives of Mapleton City. The modification shall be consistent with appropriate engineering measures to protect public safety and shall be made after the recommendation of the city engineer, the city staff, and the planning commission."

Street Widening, Curb, Gutter and Sidewalk: The request to waive street widening, curb, gutter and sidewalk improvements often comes up, particularly in situations where the improvements will look out of place. The argument for requiring the improvements is that it is better to have the developer pay for the improvements rather than the City needing to burden the tax payers if the improvements were installed by the City at a later time. The arguments against requiring the improvements include that they often appear out of place and detract from the rural character of an area, and the improved areas often deteriorate and need repairs before they are ever connected to additional improvements.

Staff notes that the General Plan states the following:

“Retain rural features by way of open area, alternatives to curb, gutter, and sidewalk, planting strips, rail or log fences, trees, shrubs, etc.”

The Council should determine if the curb, gutter and street widening would impact the rural character of the area.

Planning Commission Review: The Planning Commission reviewed this application on August 27, 2015 (see attached minutes). Several members of the public spoke against the requirement to install curb, gutter and street widening improvements. Some of the concerns included:

- There are no other similar improvements in the area and there likely won't ever be curb and gutter on the north side of the road due to the City's trial;
- The improvements would detract from the rural character; and
- The widened street for this one lot could be used as overflow parking for Springville's Bartholomew's Park.

The Commission recommended that the Council waive the requirement for a formal curb and gutter and that staff develop a rural street cross section for this portion of 1600 North that still could require some street widening.

1600 North: East from 1250 East along 1600 North only one property has curb, gutter and sidewalk. Due to the construction of the Lateral Canal Trail, there likely will not be curb and gutter on the north side of 1600 North, east of 1200 East. If the Council is supportive of the Planning Commission's recommendation, staff could prepare a rural cross section that could be used for the eastern portion of 1600 North, including the subject lot.

STAFF RECCOMENDATION

Determine if the waiver of curb, gutter and street widening is appropriate.

MAPLETON CITY

PLANNING COMMISSION MINUTES

August 27, 2015

5 **PRESIDING AND CONDUCTING:** Chairman Rich Lewis

7 **Commissioners in Attendance:** Golden Murray
8 Keith Stirling

10 **Staff in Attendance:** Sean Conroy, Community Development Director
11 Brian Tucker, Planner

13 **Minutes Taken by:** April Houser, Executive Secretary

15 Chairman Lewis called the meeting to order at 6:30pm. Keith Stirling gave the invocation and
16 Golden Murray led the Pledge of Allegiance.

17
18 *Items are not necessarily heard in the order listed below.*

19
20
21 **Item 2. Consideration of a Preliminary and Final Plat approval for the Homestead**
22 **Plat "A" subdivision consisting of one 2 acre lot located at approximately**
23 **1820 East and 1600 North.**

24
25 **Sean Conroy**, Community Development Director, went over the Staff Report for those in
26 attendance. This property consists of a 126 acre parcel. The property has frontage on 1200
27 North and 1600 North. Mark and Lori Sheranian's daughter would like to build one new
28 residence on the property. Some street widening, along with curb and gutter on 1600 North, will
29 be required. The City Council met in the past to discuss this possible subdivision. They felt that
30 no sidewalk would need to be installed, but did ask for curb, gutter and street widening. The
31 request complies with all zoning and subdivision ordinances.

32
33 The applicant stated that she would still prefer not to install the curb or gutter at this time. It was
34 the City Engineer and City Council who felt it should be installed.

35
36 **Chairman Lewis** opened the Public Hearing. **Gary Peterson** disagrees with the City Engineer.
37 He does not feel concrete should be put in this area. Mr. Peterson feels there is an opportunity
38 here to protect the residents and kids. **Mike Mittanck** asked where the street widening would
39 take place. Staff stated that it will only be along the frontage of this property. The ditch will be
40 piped, so it will continue to remain elevated, and the driveway will cross over it. Mr. Mittanck
41 was concerned about the esthetics of the area, and would suggest making it look nice if possible.
42 **Steve McCowan** is not opposed to putting in a home on the 2 acres. He is concerned with

43 widening of the street, and would be opposed to anything in addition to a one lane each way
44 street. Steve would ask that they maintain the current feel of the neighborhood, and would like
45 the infrastructure to remain as is. **Robert McCowan** feels that the quiet country feel should
46 remain, as it is what Mapleton is known for. No additional comments were given and the Public
47 Hearing was closed.

48
49 Staff went over the different types of decisions that could be made this evening. If the
50 improvements are installed the City will maintain them moving forward. **Commissioner**
51 **Murray** liked the idea of the rural cross section in this area.

52
53 **Motion:** Commissioner Murray moved to recommend approval to the City Council of the
54 Preliminary and Final Plat for the Homestead Plat "A" subdivision consisting of
55 one 2 acre lot located at approximately 1820 East and 1600 North with the
56 conditions listed below:

- 57 1. Any outstanding items identified in the Development Review
58 Committee (DRC) Minutes dated August 11, 2015 be addressed.
- 59 2. Right-of-Way (ROW) be dedicated as suggested.
- 60 3. A Rural Street Cross Section be created for this type of development.

61 **Second:** Commissioner Stirling

62 **Vote:** Unanimous
