ACTION ITEMS:

Item 3. Consideration for the purchase of 4 “used” Sperian Warrior 4500 PSI SCBA packs (Self Contained Breathing Apparatus), with the ability to update to new Honeywell Titan 4500 PSI SCBA’s.

Josh Olsen, Fire Chief, reviewed the staff report for those in attendance. The fire department is requesting 4 used SCBAs with the option to upgrade to new models. The older models do not hold as much air as the new units do. There are safety concerns with the units that the department is using now. The upgrade for this year is in the budget, but the \$18,068 that is being proposed tonight is not.

Motion: Cl. Reid moved to approve the purchase of 4 “used” Sperian Warrior 4500 PSI SCBA packs (Self Contained Breathing Apparatus), with the ability to upgrade to new Honeywell Titan 4500 PSI SCBA’s using \$18,068 from the general fund reserves.

DISCUSSION ITEMS:

Item 5. A discussion item regarding a potential concept plan and annexation application for 99 acres located at approximately 800 South Slant Road.

Sean Conroy, Community Development Director, reviewed the staff report for those in attendance. The developers would like the council to review the concept plan, add any comments with regards to density.

Cl. Reid stated that immediately east of this property are 1 acre lots. He inquired how there are 1 acre lots in high density? Mayor Wall explained that this was a cluster zone and there is open space that that was supposed to be a park and most of the lots are half acre. Cl. Reid suggested having the larger lots on the outside and smaller internally.

Lloyd with DR Horton stated that they liked the idea of smaller lots by the railroad tracks. This is one of their first layouts and they are not set on this. There are 3 power lines that need to be moved and this is something they will consider.

Cl. Lundberg stated that if this is the continuation of Maple Street, Slant Road is very narrow and with higher density this could be a traffic safety concern. Sean stated that this will need a traffic study due to the size of this project.

Cl. Hansen inquired if there will be some sort of barrier along the tracks. Gary Calder stated that there is a natural barrier because the tracks are higher in this area.

MAYOR, COUNCIL, AND ADMINISTRATIVE REPORTS:

Sean Conroy stated that he has received phone calls with regards to allowing chickens on smaller lots. The council was supportive of staff to bring this forward as an action item.

Gary Calder reported that the road where the Olsen sheep farm is has been closed and work has begun on the tracks for the sewer line.

John Jackson stated that Mapleton City did receive the grant for the Utah County Injury Prevention Program which will go towards bike helmets for the youth and it was mentioned that the city will work through the elementary schools to give the helmets away. An elderly man was missing yesterday and

Springville Dispatch used the Everbridge Alert System to send out a message to surrounding Springville and Mapleton residents. The gentleman was found 9 minutes later.

Mayor Wall reported that Pleasant View City is passing a road utility fee.

Cl. Nelson arrived at 8:00 pm

Cl. Reid stated that Luis Muzquiz who owns LaCasita in Springville is the President of the Springville/Mapleton Chamber of Commerce. Cl. Reid also is on the board and would like to see Mapleton be more active and get involved to give support to the local businesses. He will provide updates as they are available.

Debbie Sanchez stated that an RFP has gone out for a collection agency. Bids are due on Friday, February 12th by 5:00 pm.

Cory Branch reported that within the last month with all the snow the public works department has done a great job with snow removal. Some of the residents in Harvest Park think that our plows need to go wider than what is currently being done. Cory thinks that if they went any closer to the curb the plows would throw snow into the front yards and driveways. He appreciates the police department putting warning tags on vehicles to try and remove the vehicles from the street.

Cory, Sean and John met with DNR and Brian Cook with Humphreys Archery. Mr. Cook is very familiar with the urban deer program and Cory thinks he would do a great job for Mapleton City. After further conversation, he will put a staff report together for the council to review. Cory received spreadsheets from all departments on their vehicle replacement requests.

CLOSED MEETING:

Motion: Cl. Lundberg moved to adjourn the regular meeting and open a closed meeting pursuant to U.C.A. §52-4-205 for the purpose of discussing pending or potential litigation and the purchase, exchange, or lease of real property and personnel.

Second: Cl. Reid seconded the motion
