Public Safety

With warm weather also comes a higher crime rate. Please watch your neighborhoods for suspicious activity and call the Police Department if you notice something suspicious. If you leave for a summer vacation do not post on social media that you will be gone, let a trusted neighbor know that you will be out of town and ask them to help watch your residence. Remember to lock all sheds and keep garages closed at night. Make sure all bikes and scooters are in your garage and not left out in the front yard.

Also with the warmer weather and school almost being out for the summer, children will be outside playing, riding bikes, and scooters. Please be observant while driving of children playing and slow down. Encourage your own children to wear a helmet while riding a bike, scooter or skateboard. While doing yard work please remember to keep piles of rocks, soil, and bark off the road and sidewalks.

The Police Department has recently acquired a UTV. We plan on using the UTV to patrol the trail system and other areas not accessible by a patrol vehicle. Feel free to stop and talk with Officers while they are on the trail or in other areas and let them know if there are any problems that they can help with. The UTV is equipped with basic first aid supplies, fire extinguishers, water, and basic police equipment. We look forward to seeing you out there.

Water Conservation

As we move into the summer months most of us look forward to sunshine, baseball, long evenings, strolls on the Mapleton Lateral Canal Trail, and lush green lawns. As you know, Utah is a very dry state and keeping our lawns green and manicured takes time, effort, and plenty of water. However, water is a scarce resource, and due to a drier than usual winter, conserving water this summer is more important than ever. Here are some tips on maximizing your water efficiency and getting the most out of your dollars:

1. Water during the coolest part of the day
2. Do not water in high winds
3. Keep lawns mowed to approximately 2-3" in length
4. Coordinate with your neighbors on watering times to minimize pressure problems
5. Clean out the filter on your sprinkler system
6. Consider a water smart controller
7. Consider manually setting your controller to water the lawn only when you see a need
8. Measure the amount of water your sprinklers put out and water based on volume rather than time
9. Adjust your heads to avoid overspray onto concrete areas

Let's all work together to conserve water and make Mapleton City beautiful this summer!

Mapleton City EMS/Ambulance

CPR Class

The CPR class on May 26th has been cancelled due to Memorial Weekend. Our next class will be on Saturday June 23rd. Details can be found on the EMS page of mapleton.org

Blood Drive

Mapleton City recently held a blood drive at the request of the Red Cross to help with a nationwide shortage. We were more than happy to help and so were our citizens! We totaled out at 20 pints which can help save up to 60 lives in our community and wherever else needed. Thank you to everyone that came out and supported this event. Our next blood drive will be August 13th. Please look for more information in upcoming city newsletter. We are going to try and top our former blood donations, and have a little friendly competition between our public safety groups. Stay tuned!!

Emergency Preparedness

On April 19th we participated in the Great Utah Shake Out. It was a great learning experience for our city. During the event we used the Citizen Alert system to communicate with all our Mapleton residents. If you did not receive that text, please make sure that you sign up. It is a free service for our citizens and will keep you informed in the event of an emergency.
