Public Safety

Mapleton's Pioneer Day Celebration may be busiest day of the year for your public safety departments, but is also one of the most fun. We enjoy getting to see all the people that come out to the events. If any resident or their child would like to visit with any of the Police, Fire, or EMS personnel feel free to come say hello. Public Safety personnel will be at all the events on Pioneer Day.

Pioneer Day does require us to alter some traffic patterns. Remember to give yourself some extra time getting to and from events. Officers will be doing their best to get vehicles in and out as quickly as possible. Also, remember that this day involves many young children running around excited about the events. Please drive slowly and carefully.

Fire Department

This year the Utah State Laws have changed regarding the days allowed to discharge Fireworks, they are as follows between the hours of 11am and 11pm except as noted:

- July 2 - July 5 (July 4 hours extended to Midnight)
- July 22 - July 25 (July 24 hours extended to Midnight)
- December 31 (11am - 1am January 1, 2019)

**THESE DATES AND BOUNDARIES
WILL BE ENFORCED**

The boundary map is located on the City website, and posted on the front window of the City Building and the Fire Station. Please be very careful when discharging fireworks as it is very dry again this year. Have a safe and fun 4th and 24th of July.

Library/Literacy Center

Pioneer Day Parade

Watch for the Bookmobile in the parade this year. We will be handing out candy and fun prizes!

Book Sale

THANK YOU to everyone who made the book sale a success again this year. Since we have so many books, we are extending the sale. From July 2nd to July 13th, all materials will be discounted to 25 cents. This is a great way to build up your personal library inexpensively and support the Literacy Center.

Why Conserve Water?

Utah consumes about 240 gallons of water per person per day. As our state's population increases, one way to help meet future demand is by conservation. Utah has a goal of reducing per capita water consumption by 25% by the year 2025. So far, we've conserved 18%.

Utah uses the most water per capita in the US, but we receive the second lowest annual rainfall at an average of 13" per year. Here are some things we all can do to conserve water:

- Avoid watering your landscape during the hottest hours of the day (10am until 6 pm) to minimize evaporation.
- Turn your sprinkler system off during or after a rainstorm and leave it off until the plants need to be watered again.
- Check your sprinkler valves for leaks when checking all your heads.
- Avoid watering your lawn on windy days.
- Turn back your automatic timers in the spring and fall. Water only once or twice a week during the spring and fall.
